

# Langley Research Center Safety Alert

SA-11-92

Date: August 18, 1992

TO: Distribution

FROM: 429/Head, Risk Management Branch, SSQRD

SUBJECT: Material Safety Data Sheet (MSDS) Update 92-2

MSDSs are usually obtained as a part of the acquisition process and are required to be maintained in facilities. Manufacturers frequently send updates to these MSDSs to notify customers of changes in their product. The following is a list of MSDSs received and for which no "L" numbers or other identifying data exists to track the exact location and user. If you need a copy of these, contact R. Johnston, Industrial Hygienist at Extension 43208.
